

Portugal, business by the sea

A scenic view of a coastline in Portugal. The image shows a clear blue sea meeting a sandy beach at the bottom. The water transitions from a deep blue to a lighter turquoise near the shore. On the right, a dark, forested cliffside descends towards the water. In the foreground, there are various green plants and trees, some with small red flowers, framing the view. The sky is a pale, clear blue.

Discover what has been happening in Portugal, one of the countries which experienced the most dramatic changes in the last 30 years.
Welcome to Portugal.

Did you know that Portugal is
a world leader in biometric
solutions?

Master Guardian was the first alarm
company in the world to integrate
design with biometric technology.

On Land, in the Air or in the Water Be safe with Portuguese software

A blue and yellow high-speed train is shown in motion, traveling through a tunnel. The train is the central focus, with its windows reflecting the tunnel's interior. The background is blurred, suggesting speed. The lighting is dramatic, with a bright light source at the end of the tunnel creating a strong glow.

SISCOG's software provides decision-support systems for resource planning and management for the most advanced and sophisticated European railway systems.

SkySoft is a technology and systems provider of software for navigation and communications systems by satellite, used in the management of maritime and road infrastructures.

A man in a dark suit is pointing at a large, interactive digital display. The display shows a futuristic cityscape and a car. The text 'Feel free to point' is overlaid on the image. The background is a green wall with a grid pattern. The man is looking at the display with interest. The display is mounted on a stand with the word 'DISPLAY' visible on the base.

Feel free to point

Edigma Displax technology transforms any surface into an interactive board ideal for commercial, entertainment or educational purposes.

A world without borders demands technology... Portuguese technology!

Did you know that “Critical Software” developed the software for information systems integration of the Schengen’s space countries?

And that Vision-Box developed the biometric reader software for the electronic passport?

Other companies, such as Novabase, Microfil and New Vision, also contribute to make Portugal an international case study in e.government.

Time is money. So make money with us

Did you know that, with the implementation of the Simplex system, you only need 33 minutes to open a business in Portugal?

The image shows three large, white satellite dishes mounted on tall, white, conical pedestals. The dishes are arranged in a row, with the central one being the largest and most prominent. The background is a soft, hazy sunset or sunrise sky, with distant mountains visible on the horizon. The overall tone is warm and serene.

BMW, Porsche, Samsonite, Mercedes. They all shop in Portugal

Flies to 64 destinations in 30 countries

TAP Portugal is the leading national airline, member of Star Alliance. Its Lisbon hub is a key European gateway to Africa, North America and Brazil

A large commercial airplane is centered in a vast, well-lit hangar. The aircraft is white with blue accents on the tail and engines. The hangar has a high ceiling with a complex steel truss structure and numerous overhead lights. In the background, there are various pieces of equipment, scaffolding, and structural elements of the hangar, including pillars labeled 'CL.2' and 'CL.4'.

OGMA provides the civil and defense aviation market with solutions on aircraft assemble and maintenance, using a combination of technology and materials, flexibility and efficiency.
Our clients and partners know that.

Together, we fly higher

A good company requires solid structures

Martifer is one of the world's largest manufacturer of metallic structures

GALP – Portugal's Oil & Gas company

Has made large technology investments in its infrastructure, to achieve and maintain long-term energy sustainability.

Awesome

The best copy paper in the world - the Navigator, by the Portucel-Soporcel Group - is produced here.

We are a nation since 1143

But we have always been wine exporters. Our wine dates back to our land origins.

A new partner

Dove Sole

Psetta Maxima

Acuinova produces a wide variety of fish in its state of the art marine aquiculture factory, one of Europe's largest land based fish farm.

Tailor made packaging gets you further

Logoplaste is one of the top 10 largest world producers of rigid plastic packaging. It offers customized solutions right in the client's premises.

Europe's Atlantic Door

An aerial photograph of the Port of Sines in Portugal. The image shows a large, deep-water harbor with a long, narrow pier extending from the left side into the ocean. The harbor is filled with various industrial structures, including large storage tanks and buildings. In the background, a city is visible, and the surrounding landscape is a mix of urban and natural areas. The sky is clear and blue, and the water is a deep blue-green color.

Port of Sines:

Excellent accessibility

Modern and simple

One of the European Union's
largest deep water ports

Partnerships for the future

This program has launched the International Iberian Nanotechnology Laboratory, located in Braga; the Information and Communication Technologies Institute (in collaboration with the Carnegie Mellon University); the Colaboratory for Emerging Technologies (in collaboration with the University of Texas, Austin); and the Fraunhofer Portugal Program (in collaboration with the Fraunhofer-Gesellschaft).

42% of the Portuguese population
speaks a second language

This is one of the reasons why
Microsoft installed its Language
Development Center in Portugal.

R & D, a healthy prescription

The Bial Group invests over 20% of its turnover in R&D.

Its products are in pharmacies in nearly 40 countries and has 6 new worldwide patented molecules .

Developed and distributed a new anti-epileptic drug in Europe and in 2020, intends to launch another 5 new drugs worldwide.

Over the last four decades, Portugal has been a valuable partner in the manufacture of Leica's cameras, binoculars and the development of new optical products.

Precision, Accuracy, Clarity

Bridges all over the world

A large bridge under construction at night, illuminated by bright lights, with a long pier extending into the water. The scene is set against a dark blue twilight sky. The bridge's concrete piers and steel framework are brightly lit, with the lights reflecting on the calm water surface. A long, narrow pier with a metal railing extends from the foreground towards the bridge. In the background, a city skyline is visible with various lights and structures.

Among cultures for centuries. And in construction as well. The secret? Engineers such as Segadães Tavares and Architects such as Siza Vieira or world renown companies such as Mota Engil, Teixeira Duarte and the Groups Lena and Soares da Costa.

Star of the Sea

The Nelo Kayaks are an outstanding example of absolute leadership of the global market. Portuguese brand M.A.R. Kayaks, manufactured 80% of the boats used at the Beijing Olympic Games. The teams that raced with these boats took home 20 out of the 36 canoeing medals.

A high-angle, wide-angle photograph of a surfer riding a wave. The surfer is wearing a black wetsuit and is positioned in the lower center of the frame, riding a white surfboard. The wave is a large, curling barrel of blue water that dominates the scene. The background shows a sandy beach and some buildings under a bright sky. The overall color palette is dominated by various shades of blue and white.

Headquartered in Ericeira, the famous surfing beach in Portugal, and with offices in California and Bologna, NFive controls 75% of the global software market for identification cards.

Surf & Technology

New circum navigation

The Magellan, a laptop especially developed for the use of school children, is being distributed in all Portuguese public schools. It is an extremely resistant machine that has an internet access safety control system.

The laptops are being exported to Venezuela, Brazil, Angola, Argentina and Cape Verde.

Life is good in Portugal!

Blue skies, generous nature and centuries old heritage.
Dream, invest and succeed. Come on ... Move over here.

We bring music to your ears

Braga, located in the north of Portugal, is home to Europe's largest car radio plant, owned by Bosch.

Did you know that Portugal is the main supplier of car radios to the European market?

Who said that solutions do not drop out of the sky?

NDrive launched the first GPS in the world with aerial images.

The future is in the horizon

Did you know that EDP, Energias de Portugal is the world's fourth-biggest wind operator and one of the largest in the Iberian Peninsula?

The Sun King

AJLobo / Open Renewables is a pioneer and leader in the manufacture of state-of-the-art photovoltaic solutions.

The company's sustained growth strategy is based on its strong commitment to R&D Portugal is a world reference in solar energy and is home to one of the world's largest solar photovoltaic power plant.

In Portugal, we take full advantage of the Sun

A large, dark silhouette of an oak tree stands in the foreground, its branches spreading across the upper half of the frame. The background features a calm body of water reflecting the golden light of a setting sun. The sky is a mix of blue and orange, with some light clouds. The overall mood is serene and natural.

More cork, less CO₂

Focused on sustainability, Corticeira Amorim has contributed to the preservation of thousands of oak trees, to biodiversity and to the prevention of desertification. The company is the world's largest cork manufacturer, exporting to over 100 countries.

Innovative

In the production of wood by-products,
of the largest shopping malls in Europe,
or in telecommunications, Sonae is all
about change.

PORTUGAL'S FOREST

Research of new species, forest management and leadership in paper and paper pulp production are some of the attributes that make the Portuguese Forest products succeed in the international markets.

NOBILITY

The “Lusitano” is one of the three purebred horses in the world.

Portuguese in its soul and temperament, it commands a presence with its gentle and noble steps.

Best of all?

The Portuguese

We speak the language of those who visit us.

We are always eager for new discoveries, inventions and to help build a more open and united world. We are always available to undertake new adventures, to learn more and do even better
